

3,725,615 people living in the areas affected by the earthquakes (est.)¹
482,349 displaced²

196,595 injured²
112,405 dead²

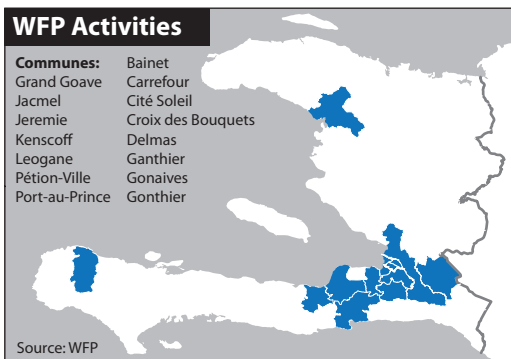

Health Activities

Communes: Leogane, Cabaret, Carrefour, Cite Soleil, Delmas, Gonaives, Gressier, Jacmel, Les Cayes, Miragoane, Petion-Ville, Petit-Goave, Port-au-Prince, Saint-Marc, Tabarre

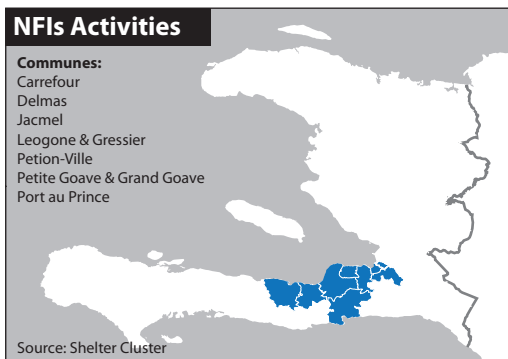

WFP Activities

Communes: Baint, Grand Goave, Jacmel, Jeremie, Kenscoff, Leogane, Pétion-Ville, Port-au-Prince, Carrefour, Cité Soleil, Croix des Bouquets, Delmas, Ganthier, Gonaives, Gonthier

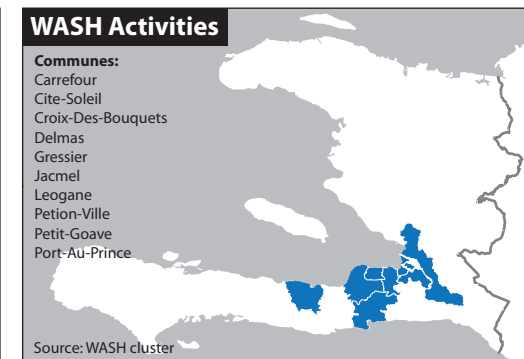

NFIs Activities

Communes: Carrefour, Delmas, Jacmel, Leogane & Gressier, Petion-Ville, Petite Goave & Grand Goave, Port au Prince

WASH Activities

Communes: Carrefour, Cite-Soleil, Croix-Des-Bouquets, Delmas, Gressier, Jacmel, Leogane, Petion-Ville, Petit-Goave, Port-Au-Prince

Information on activities is based on best available data (contact lists, reports, tables and various materials distributed by the clusters) and is updated regularly. If your activities are not highlighted, please, report to ocha.haiti.im@gmail.com

40,885 treated³
3,201 surgeries performed³
274 organizations⁴

Challenges:

- Growing caseload of diarrhea in the last two to three days, reports of suspected cases of measles and tetanus.
- PROMESS warehouse supplies are available; PROMESS needs 2 to 24 hours to fill medicine/supply orders.
- Priorities of the Ministry of Health include post-operative care and rehabilitation of disabled people and provision of medical services outside of Port-au-Prince and at internally displaced persons sites.⁵

2,000,000 in need of food⁶
639,200 reached by WFP⁷
32% people reached

Challenges:

- While the overall security situation in Port-au-Prince remains calm, crowd control at aid distribution points, especially during food distributions, remain a concern. On 27 January a food distribution activity conducted by WFP/ACTED in the Martissant, Killik area (Carrefour) was looted by the crowd.
- Logistics challenges⁹

1,100,000 in need of shelter¹⁰
692,000 people displaced in Port-au-Prince¹¹
591 improvised settlements¹¹
55 organizations¹⁰

Challenges:

The main gaps and constraints for efficient site planning and distribution of NFIs remain in coordination and sharing of information between partners (especially on NFI distributions) in order to avoid risks of duplication and/or absence of assistance in affected sites.¹²

500,000 in need of water⁸
464,000 reached⁹
35 organizations¹²

Situation:

For Thursday and Friday, the Wash cluster's target was to distribute each day to 432,000 people in 133 sites. The provision of bottled water for public institutions continues in addition to the potable water distributions.⁹
